13 A staggered spray nozzle system for efficiently thermally managing one or more
14 electronic devices. The staggered spray nozzle system includes a first portion and a
1 second portion positioned with the first portion. The first portion includes at least one
2 first orifice for dispensing a first fluid flow towards at least one electronic device. A
3 second portion is positioned within the first portion, wherein the second portion may
4 be slidably positioned or non-movably positioned within the first portion. The second
5 portion includes at least one second orifice for dispensing a second fluid flow towards
6 at least one electronic device.
